

Dear Friends of Birders' Exchange –American Birding Association:

With immense gratitude we write this report in which we explain the use that we will give to the donation of two (2) binoculars and a (1) copy of the book Guide of birds of Colombia that so kindly have donated us.

In a continuous way from the year 2002 the River Cali Association he carries out investigation works, education and conservation of the birds and its habitat in the Important Bird Area (IBA) Cloud Forest of San Antonio - Km. 18. Inside the program Monitoreo of birds forest fragmentation in Western Andes of Colombia, the Association carries out censuses and inventories of birds with the accompaniment from the year 2004 of the members of the Local Group of observers of birds TITIRIBI who have transformed into local investigators. The work on the whole seeks to evaluate long term the changes of the communities of birds in fragments of different sizes in Colombia Andes.

The donation will allow to provide of teams for some of the local investigators and which are inhabiting of town of El Saladito, rural area of the Municipality of Cali.

Equally the donation helped to strengthen the formation processes and environmental education that at the present time carries out the River Cali Association in the Educational Centers of towns of El Saladito and Felidia.

We appreciate the support toasted to our work and we hope to be able to narrow knots of friendship, cooperation and work in conservation of the birds.

We hope they can visit one another in Colombia and this way they know but of our work.

With appreciation and gratitude:

Carlos Mario Wagner Wagner
River Cali Association
