

ON THE COVER: Florida's first breeding Least Grebes fledged two young in Palm Beach in September and October (here 12 October) 2008. Least Grebes also seem to be expanding northward in Texas, and one remarkable bird was documented in Arkansas in autumn 2008. It is possible, however, that Florida's birds came from the West Indies. *Photograph by Ron Kern.*

Contents

Fall Migration: August through November 2008

NORTH AMERICAN BIRDS • AMERICAN BIRDING ASSOCIATION • VOLUME 63 • NUMBER 1 • 2009
